1. Cultural Fireworks in 1820-1939, English, 1,782 pages, culture book, self-published eBook, Haifa, Israel, 2021

The book consists mainly of two main parts: 1. Culture in European Languages in the twelfty (120 years) 1820-1939, as analyzed through Jacques Cory's personal prism, with a unique contribution to understanding this culture in all its facets, putting an emphasis on literature and drama, with a comparative analysis of literature, arts and music, thoughts and quotes on significant literatures, and a play with 36+ protagonists meeting at a Parisian Salon on 31/12/1899. 2. Attending the Best Premieres of plays, films, operas, classical music, ballets, events in Paris and the world from 1820 to 1939. One could find of course all what he wants on the authors, composers, painters, premieres, books or films of this twelfty, on Wikipedia and many other sources. Cory has mentioned the links to thousands of them and the others are very easy to find, but he has contributed to this book his personal approach which is holistic and cosmopolitan. However, as Cory's knowledge does not encompass all the book's fields of interest, he has included also ten guest articles from prominent authors. After the main part of the book, an Appendix is included with encyclopediac chapters on this epoch, events and prominent cultural people, original essays on interesting topics, as well as data from Wikipedia, Encyclopedia Britannica, etc. on cultural events. This book is written as Cory's personal voyage into this twelfty's culture. The book of Illustrations include photos & pictures of cultural events, premieres, paintings, posters, and of the paragons of science, culture, literature, art, music, theater, films, technology in the most inventive twelfty of all. The salonnières photos are in the main book. The Abridged Book comprises mainly the first part of the book, without the premieres, encyclopediac chapters, and photos.

5. Cory's CyberCouch Classic Concerts, 216 pages, with links to YouTube of about 1200 works composed in 1820-1939, based on the play, self-published eBook, Haifa, Israel, 2022

I'm quite skeptical that my play will ever be staged, partly because it has 36 protagonists, the paragons of culture talking about their creations, their plans for the new century, at a twentieth century New Year's party hosted by Ernesta Stern in Paris, 68, rue du Faubourg Saint-Honore. The artistic program is also exceptionally rich. My play describes the staging of Rostand's play *L'AIGLON* about Napoleon's son, with the 55-year-old Sarah Bernhardt in the role of the 20-year-old young, who will become her best role ever. Sarah is courting 31-year-old Edmond, but she knows she has no chance, as his wife Rosemonde wrote him sublime love poems. The play also features Emile Zola, who returned from exile after Dreyfus was released, Clemenceau, the editor of the newspaper in which Zola wrote his "J'accuse", Tolstoy, Ibsen, Oscar Wilde, who had just been released from prison and lived in Paris, George Bernard Shaw, Claude Monet, Toulouse-Lautrec, Sigmund Freud who tells about his book on dreams, Mark Twain, Verne, Feydeau, Rodin, Proust, Isadora Duncan, W. S. Gilbert.

The artistic program with the best artists lasts for several hours and includes concerts by the great composers at the end of the century, as well as recitals by innovative composers such as Saint-Saens, Debussy, Albeniz, Sarasate, with enfants prodiges as Rubinstein and Huberman, alongside famous artists as Joachim and Grieg, coming to Paris after Dreyfus was released. Ernesta Stern, was a Dreyfusard, as most of her guests at her Salon. But I also give an opportunity to her friend Yvette Guilbert, queen of chansons, who believed in the narrative of government and army convicting Dreyfus to explain her conduct, ending in reconciliation, in the spirit of the "compromise government" that released Dreyfus, on the eve of the 1900 Paris World's Fair. We don't miss the juicy stories, like the circumstances of the death of President Faure, who used to visit Stern's Salon opposite the Elysee. There is of course a Greek choir, my alter ego Jacques Corot, who interprets the plot, the context, what is about to happen, and gives hope to gays/lesbians, socialists, feminism. The only thing common to Edmond Rostand and my creative process was that we both relied on the muse, with the characters taking over and dictating to me what to say in their own words (using quotes on Google), to explain what Wilde's considerations were not to cooperate in exposing Esterhazy's guilt, as punishment for Zola who didn't support him, and how in the end everything worked out. But Rostand had a wider audience, and of course much more talent, succeeding extremely at such a young age.

I gave a special emphasis on innovation and science, and I give a stage to Mary Curie, Röntgen, Mendeleev, who tell us about their inventions, even Ragnar Sohlman talks about the Nobel Prizes in the making, my protagonists talk about the latest inventions - the zeppelin, the car, the movies, Eiffel Tower, but also sociology, with the participation of Lumiere and Melies, presenting their latest films, as Melies' film about the Dreyfus affair. Theodor Herzl is also present, because he is a veteran Parisian, and he speaks enthusiastically about the Jewish state. Ernesta is even trying to bring about a collaboration between him and her relative Baron Edmond de Rothschild who lives across the street and jumped to say hello. They are all cousins, the Rothschilds, the Sterns, all the Jewish financial aristocracy, the men make money and the women are engaged in culture. Opera lovers will enjoy that Puccini comes especially for New Year's Eve along with Caruso and Toscanini, tells about Tosca's upcoming premiere, while Caruso, who was Ernesta Stern's Salon habitue, sings 12 arias, which I chose especially from his favorite repertoire in those years. There is a standing ovation for the elderly Verdi, while all sing *Va Pensiero* in Italian from *Nabucco*. We hear also poems by Wilde in English, Hugo in French and Alarcon in Spanish, Olga Knipper plays Tatiana writing her letter to Onegin in Russian, and at the end all the protagonists sing *Ode to Joy* in German, while the fireworks are seen and Souza plays marches. My play is my humble contribution as an Ode to Paris, French and European culture, and to the innovative paragons in arts and sciences.

I hope that I was able to arouse enough interest in you to read the play, until the heirs of Ernesta Stern agree to invest the millions for staging the play, with the 180 actors and performers (including 90 additional guests from Chekhov to Mahler, D'Annunzio to Schnitzler, Tagore to Colette, Coubertin to Charcot, Henry James to Ludovic Halevy, Assis to Bruch...), lasting for a whole day, with the best opera singers, chansons and soloists.

6. Correspondence Between 10/2018 and 12/2019, (heb/en), 270 pages, emails on culture, politics, economics, ethics, self-published eBook, Haifa, Israel, 2020 (see below)

Correspondence on the book "The Second Republic of Israel", reviews, Israeli elections, forecast of the Domsday Depression of 2020, culture, economics, politics, personal and current matters. I express my views and opinions in books, plays, case studies, posts, essays, articles, in the past also in courses, lectures and forums, but my first mode of expression was in letters and correspondence, and I continue doing so until today in emails. I chose to gather the most important emails that I have sent and received in the 15 months after publishing my book "The Second Republic of Israel" and before 2020, as I forecasted that in this year an unprecedented depression will occur since 2009. But the correspondence encompasses also cultural matters and politics in view of the political impasse in Israel since December 2018. I believe in this form of expression, that is relevant today as in the times of Alfred de Musset & George Sand, in the books "Les relations dangereuses" by Laclos, "Die Leiden des Jungen Werther" by Goethe, and after all what is the modern "post" if not a new form of a letter or an email, a "tweet" a new form of a telegram, and a "selfie" a new form of an autoportrait.

7. Correspondence Between 1/2020 and 6/2020, (heb/en), 842 pages, emails on culture, politics, economics, ethics, self-published eBook, Haifa, Israel, 2020

Correspondence on the Corona virus, reviews on my books, Israeli elections, the Covid-19 Depression, culture, economics, politics, the Israeli-Palestinian conflict, personal and current matters, articles, photos, but most of all the "Think Tank" that operated in the months March-June with 32 prominent participants. I express my views and opinions in books, plays, case studies, posts, essays, articles, in the past also in courses, lectures and forums, but my first mode of expression was in letters and correspondence, and I continue doing so until today in emails. I chose to gather the most important emails that I have sent and received in the first 6 months of 2020, that was extremely active in correspondence, as people were in confinement. I believe in this form of expression, that is relevant today as in the times of Alfred de Musset & George Sand, in the books "Les relations dangereuses" by Laclos, "Die Leiden des Jungen Werther" by Goethe, and after all what is the modern "post" if not a new form of a letter or an email, a "tweet" a new form of a telegram, and a "selfie" a new form of an autoportrait.

צדק חברתי, כלכלי ושלטוני: מסות ומאמרים מאת יעקב קורי [Google Books](#)

The academic eBook in Hebrew is a compilation of essays and articles on Social, Economic and Governmental Justice, written by Jacques Cory and published in leading universities and organizations websites. The book gives an alternative method to conduct business, more social in its approach, more humane – the opposite of the neoliberal approach prevailing in the United States and Israel. Its political implication is a new regime – the Second Republic of Israel – focused on the welfare of the 99% of citizens, which are not represented adequately in the Israeli government. But the ideology of the book is universal, as the same economic and social injustice prevails in all the neoliberal regimes and in many other so-called social regimes, which advocate minimal regulation, extensive ties between government and the tycoons ruling business, and a reckless market economy, which is in fact ruled by monopolies and oligarchs. Finally, the book analyzes the Scandinavian model and suggests adopting most of their precepts in order to achieve best results. The eBook from 2012 exists only in this format, and anyone can print it, as Cory and others did, or read it free of charge. L'ETHIQUE DES AFFAIRES ET LES ACTIONNAIRES MINORITAIRES: DES VOIES NOUVELLES POUR SAUVEGARDER LES INTERETS DES ACTIONNAIRES MINORITAIRES

Le livre examine le contexte actuel de l'éthique des affaires envers les actionnaires minoritaires, et propose des voies nouvelles. Il traite successivement de la nécessité de mener une recherche pionnière ; de l'intérêt d'une recherche qualitative et des études de cas ; de la légitimité de la recherche littéraire dans le cadre d'un livre académique ; des règles concluant le livre; de l'analyse comparative de l'affaire Enron et du livre. Le livre montre comment les mécanismes ou instances traditionnels visant à garantir les droits des actionnaires minoritaires; à savoir le système légal, les actions collectives, les dirigeants des entreprises, les membres des conseils d'administration, les administrateurs indépendants, l'autorité de tutelle des marchés boursiers, les auditeurs, les analystes, les soumissionnaires et la presse; n'apportent pas souvent une protection suffisante aux actionnaires minoritaires. Kedem Publishing, Sidrat Keshet ha-Mizrah, 2001, soft cover.

ISBN – 965-7103-11-8, 9789657103111.

The Hebrew novel "Beware of Greeks' Presents" describes in a trenchant way the corruption in the business world, as only a businessman who knows the reality from personal knowledge can describe. This is the basis of the book's originality, that is very convincing by its authenticity and by the message it conveys about the future of society in the new Millennium, a message of despair mixed with some hope. The protagonists of the book are Ully (Ulysses) and Nelly (Penelope) Doron, an Israeli couple, who is not ready to succumb to the new norms and pays the full price for that, followed by the betrayal of their best friends. Their ordeal is related as a modern Odyssey, as the heroes are from Greek origin and are compared to those of Homer. You can read extracts, details, purchasing, and reviews of the book: in English on [Cory's website in Books](#), and in [Hebrew](#), and watch a film of two hours on the launching of the book in 2001. 188 pages.

Nelly Doron, Hebrew, 123 pages, play, self-published eBook, Haifa, Israel, 1997

NELLY DORON

[Google Books](#) [נלי דורון](#), מחזה בחמש מערכות, מאת יעקב קורי

The plot of the play commences at a surprise party that Uly throws in his Tel Aviv house to his wife Nelly, in which all their friends participate. In the party a scheme is conceived to takeover at a manipulated price a company that Uly assisted its founder to make public and invested heavily in it, thus making him lose all his money as well as the investment of the minority shareholders. Uly, a modern Ulysses, is a shrewd and tough businessman, who tries to fight the corruption while keeping elementary ethical norms. However, he is not able to cope with the ruthless businessmen who act without any inhibitions and are backed by almost all the society. On the other hand Nelly, a modern Penelope, develops out of the crisis from an innocent teacher to a fearless warrior. She ceases to be the submissive woman, weaving all day and keeping a complete fidelity to her husband, and becomes a modern woman who takes her fate in her own hands in order to save her husband, herself and their marriage. Finally, the solution is found by introducing a Trojan horse, a Greeks' present, into the fortress of the enemy. But, is the victory complete, are the methods employed by the protagonists adequate, are they not corrupting also, what is the limit that one should not cross when fighting corruption, and is such a victory worthwhile? This is the main dilemma of the play that every one of us faces with his own inclinations and finds the parallels in his personal experience, in France, Israel or the US.

La pièce *Le Choix de Nelly* décrit d'une façon incisive la corruption qui règne au sein du monde des affaires, comme seul un homme d'affaires qui connaît personnellement la réalité peut le faire. Le thème de la corruption du monde des affaires, en particulier des méfaits commis à l'encontre des actionnaires minoritaires, n'a pas encore été étudié de façon adéquate dans la littérature contemporaine, et il n'existe presque pas de livres écrits par des hommes d'affaires sur ce sujet. La pièce originale et convaincante transmet un message sur l'avenir de la société moderne en ce siècle - un message de désespoir et d'espérance mêlés. La pièce aborde des problèmes tels que la corruption du monde des affaires, le racisme, la libération de la femme, l'amour et la trahison. La responsabilité sociale des entreprises (RSE) est un concept dans lequel les entreprises intègrent les préoccupations sociales, environnementales et économiques dans leurs activités et dans leurs interactions avec leurs parties prenantes. Cet ouvrage est le premier manuel de référence en français consacré à la RSE. Il présente les origines et le développement progressif de ce concept, puis montre comment la RSE se décline dans les différentes disciplines des sciences de gestion, et dans les différentes fonctions des entreprises. Enfin, il met l'accent sur les nouveaux types de gouvernance avec la RSE. L'ouvrage propose une approche interdisciplinaire (sciences de gestion, sociologie, sciences politiques...) et une orientation internationale (par les exemples choisis). Il contient des entretiens avec des spécialistes, tel Jacques Cory d'Israel. The French essay of Cory can be read in French on [Cory's website in Articles](#), and in a [Hebrew version](#) of it. 246 pages.

Hakibbutz Hameuchad Publishing House and the Jerusalem Center for Ethics, 2012, hard cover and eBook editions. ISBN – 0 0310005170 5

Public responsibility is often conceptualized as an objective and universal expression beyond time and era. However, the individual's understandings and interpretations may emphasize the personal perspective of bureaucrats and elected officials' duties. How can one bridge between citizens' expectations and subjective concepts of the term *public responsibility* and the limited definition drawn by the public sector? These and other related questions are addressed in this seminal volume. For the first time, leading Israeli scholars and experts have gathered to explore the meaning of public responsibility. Each of the distinguished authors - historians, political scientists, sociologists, social-psychologists, philosophers, literature scholars, law professors, policy analysts, economists, former judges, legislatures and

ministers – had clarified a different aspect of *Public Responsibility*, based on his professional discipline and resulting understandings of the discussed concept. The result in this academic book in Hebrew is a thorough review of the meaning of public responsibility. The essay of Cory can be read on Cory's website: in the version with the co-author Eran Vigoda-Gadot - [extracts](#), [full text](#), and in the [original version](#) by Jacques Cory. 607 pages.

3. [COURSES IN ENGLISH & FRENCH ON BUSINESS ETHICS, ETC.](#) COURSES IN HEBREW ON BUSINESS ETHICS...: [PART I/PART II](#)

Most of the courses were taught at International MBA and BA courses in Israel and abroad and received an excellent acclaim ([see Cory's website](#)). The courses are based on an extensive bibliography read and analyzed by Dr. Jacques Cory, as well as on his books and articles. In many cases, the courses were the base of Cory's books, especially in the case on the Future of Capitalism. Apparently no courses in the whole world are based on the Great Recession 2007-2010 and on the books that were written subsequently, and Cory's contemporary courses appeal to a need perceived by Cory since 2004, and by thousands of students who organized after the Great Recession and in response to the "dictatorship of the neoliberal teaching" at most of the universities in the world, in the ["International Student Initiative for Pluralism in Economics"](#). My courses comprise actually at least 2 books with detailed courses in Hebrew and English. The courses are partially included in my academic books and on my website.

4. [THE FUTURE OF CAPITALISM IN A SUSTAINABLE SOCIETY](#) - OUTLINE

The outline of the book addresses the most important issues of the world economy - the future of capitalism in a sustainable society - in the context of the Great Recession of 2007-2010, finding a pattern of the Economic Whirl starting in the eighties with damages of billions and incurring in 2008 damages of trillions. The book is unique in its holistic and comprehensive approach: psychological, economic, sociological, philosophical and moral, rather than descriptive as most of the books on this subject. It is less theoretical, more practical and understandable in approach to the issue of the future of capitalism. The book analyzes contemporary capitalism, the Recession and the Whirl, based on Dr. Cory's research and books, and more than 120 books, 130 videos, thousands of articles and documents, as well as hundreds outlines, researching them in a vivid, critical and captivating way. It examines various preferred solutions to the crisis of capitalism, corporate governance and conduct, adopted by regulators and business, recommended by eminent professors, writers and tycoons, and advocated by Cory in his works. Many years before the 2020 Depression, I wrote, based on my research and insights published from 2009 to 2018 in my books on capitalism and ethics: "This book is not only timely, but urgent. In the next crisis which could occur not later than 2020, as nothing has changed while the pace of the crises has increased exponentially, the world economy could indeed collapse, with damages reaching into the hundreds of trillions of dollars, far beyond the scope of the world GDP. Adoption of the remedies offered might prevent this collapse. Academic, private and public institutions approached by Dr. Cory are not willing yet to fund the book as it differs fundamentally from the prevailing neo liberal views." Nobody wanted to publish the book, the 2020 depression occurred at the exact time predicted, but not yet at the full scope predicted. [The book would have been written provided financing by an organization, university or individual, that were broad-minded enough to support this novel, contemporary, and in a way contrarian approach.](#)

7. [DIARY – A PORTRAIT OF THE IDEALIST AS A YOUNG MAN](#)

דיוקן של אידיאליסט כנער בוגר מאת יעקב קורי

After more than 50 years the author reads once again a diary written between the ages of 13 and 17 and is astonished how the character of the author was shaped in his early youth, while he had opposite materialistic and idealistic inclinations, intellectual and superficial tastes, egoistic and humanistic tendencies... What were his views on poverty and wealth, women, friendship, ethics, how he perceived his aims in life, on career, family, children, love, what kind of a man he wanted to be 50 years from now and what kind of a man he became? The author laughs, cries, is excited, amazed, finds analogies with his grandsons' conduct, and also a unique approach to life. The diary in Hebrew comprises hundreds of pages, but the Portrait in Hebrew, written in 2013, gives its gist in 26 pages. As a matter of fact, the diary should be listed as Opus 1 of Jacques Cory's Works. It was published in 2016 in an eBook format as part of the eBook "Essays, Memoirs, Articles..." on the websites of the University of Haifa, Carmel Academic Center, Israel, organizations, and on Cory's website, as part of the eBook mentioned, and also as a separate booklet. 11. ON BIOGRAPHIES AND LIVES OF PROMINENT PERSONALITIES

In my books one can find an extensive survey on biographies. It is fascinating to read biographies of the best politicians, businessmen, composers, musicians, painters, writers, actors, kings and emperors, heads of states and ministers, economists, etc. One can learn a lot from the good and the bad examples, from [Churchill](#), [F.D. Roosevelt](#), [De Gaulle](#), [Ben Gurion](#), [Lee Kuan Yew](#), but also from Hitler, Mussolini, Franco, Mao Zedong, and Stalin. Biographies are probably the form of literature that I enjoy most, as they are a synergy between documentary and fiction. I read more than a dozen biographies/novels of Dona Gracia, finding that probably she was responsible for rescuing my forefathers who were obliged to convert to Christianity in Portugal, and enabling them to escape to the Ottoman Empire. After reading all the books by [Emile Zola](#), my most beloved author, I read several biographies of his life, until I started reading the monumental biography of Zola by Henri Mitterand in 3 volumes of about a thousand pages each, being sure that I'll never finish it, as I read in parallel tens of other biographies. It is very interesting to read in parallel the biographies of the leaders of the world in World War II, and notice how the conflict started and evolved from all the possible angles. I started reading also in parallel biographies of my most preferred authors from Shakespeare to [Thomas Mann](#), from Cervantes to [Marcel Pagnol](#).

The best 36 biographies of prominent personalities that I have read rather recently are: Dona Gracia, Honore de Balzac, David Ben-Gurion, Brutus, Charles Chaplin, Felix Mendelssohn, Arthur Rubinstein, Charles de Gaulle, Theodor Herzl, Henrik Ibsen, Lee Kuan Yew and Singapore, Alma Mahler, Karl Marx, Arthur Miller, Victor Hugo, Mahatma Gandhi, Federico

Garcia Lorca, Liv Ullmann, George Sand, Emile Zola, Jean-Paul Sartre, Lev Tolstoi, Rembrandt, Rachel, Verdi, Warren Buffett, Renoir, Paul Hawken, Disraeli, Marcel Dassault, Don Isaac Abravanel, Coco Chanel, Sarah Bernhardt, Shelley, Alberto Moravia, Anne Frank. And I intend to read in the future the 36 biographies that I have started reading in parallel: [Shai Agnon](#), [Woody Allen](#), [Ingmar Bergman](#), [Ludwig van Beethoven](#), [Bertolt Brecht](#), [Miguel de Cervantes](#), [Winston Churchill](#), [Leonardo da Vinci/Eine Kindheitserinnerung des Leonardo da Vinci by Sigmund Freud](#), [Michelangelo Buonarroti](#), [Alfred Dreyfus](#), [Bob Dylan](#), [Ernest Hemingway](#), [Heinrich Heine](#), [Albert Einstein](#), [Isaac Newton](#), [Napoleon](#), [Moliere](#), [Marcel Pagnol](#), [Franklin Delano Roosevelt](#), [Rothschild](#), [William Shakespeare](#), [George Bernard Shaw](#), [August Strindberg](#), [The Brothers Mann \(Heinrich and Thomas\)](#), [Tennessee Williams](#), [Yisrael Meir Lau](#), [Steve Jobs](#), [Lee Iacocca](#), [Lorenzo da Ponte](#), [Marcel Proust](#), [Augustus](#), [Henri IV](#), [Goethe](#), [Elias Canetti](#), [Yitzhak Navon](#).

12. ON THE ISRAELI-PALESTINIAN CONFLICT, DOVES AND RADICAL ISLAM

In my books I have written hundreds of pages on the Israeli-Palestinian conflict and radical Islam. I have sometimes voted for hawk leaders and sometimes for dove leaders, and I even voted for Menachem Begin, the ultra-hawk, who was the first to make a peace agreement with an Arab country – Egypt. But today, Israel is under siege, by a coalition of Radical Islam countries and terrorist groups as Iran, Hamas, the Palestinian Authority, Hizballah, ISIS, etc., by anti-Semites in Western countries, by the extreme left and extreme right in Europe, by peaceloving organizations, BDS, by the UN organizations, and even by many Israelis organizations and individuals. Therefore, I have decided to write my credo on this topic in a few hundred pages in my autobiography in English and in my book "Essays, Memoirs and Articles..." in Hebrew. I emphasize that this book – as it really can be a book, is not against Arabs and Muslims to whom I have great respect, as I have showed in my career, or against the Quran which I taught in my courses as example of business ethics.

I observe the situation **today** – not in the history – and today development, ethics, democracy, human rights, technological progress, are practiced especially in "Western" societies, including Japan, South Korea, Singapore, Hong Kong, Israel, Barbados, or Botswana. Bearing in mind that those countries are not in the West, but rather in the East, and of course are not Europeans, one should refer to Western – as to the development, democracy, ethics, human rights and technological progress that prevail and originate mainly in Europe, the US, Canada, Australia and New Zealand, and were adopted by other countries in the East. This is what I mean by Eurocentrism/Western/Humane socio-economic culture, which is universal, but unfortunately does not prevail in Arab and Muslim countries and in many developing countries, not because of the Quran, which is as humane as the other religions, but due to a faulty and fundamentalist implementation of the Quran and human rights, which prevents in most of the cases democracy and human rights, gender equality, and keep their countries far away from development, progress, peace, ethics, in backwardness, poverty, extreme inequality, corruption, racism, sanctifying death instead of life.

The "book", or rather the parts of my books dealing on those issues, comprises the following topics: on Europocentrism and Western culture, against racist remarks on Jews and Muslims, on delegitimization of Israel and the Jews, the unbearable lightness of slandering Israel in the theater, the danger of ISIS expansionism - right of return to Europe, a sober point of view on the Middle East crisis, a solution to the Israeli-Palestinian conflict, on BDS and defamatory organizations, Israeli boycott by our Irish friends, the monstrous analogy between the Holocaust and the Nakba, the Palestinian and Israeli impasse preventing them to make peace, the Muslim society's blame on not condemning fundamentalists, Muslim Nobel Prize

laureates, Israeli Nobel Prize laureates, On Muslims called Jihad and Shahid, double meaning statements of Palestinians, the danger of Muslim extremism to the Western world, Are Fundamentalists Muslims the only terrorists nowadays, first they came for the others and we did not speak out, is Israel an Apartheid country and Sharia a democratic law, is Jewish, Israelis, Swedish et al. criticism against Israel justified, a satire on the Middle East conflict based on Moliere's Tartuffe, Palestinian right of return – myth and reality, fundamental Muslim anti-Semitism and Nazism, burning of books, what would happen if fundamentalist Islam would win, Jews and Israel are today as in the past the usual scapegoats, divide et impera – persecution of Christian by Muslims, who makes ethnic cleansing – Muslims or Jews, a few questions to the Christians who blame Israel, right of return of Jews out of Israel, all segments of Israel should join forces, focus on the most important issues, Israel should assume total responsibility for the situation, Muslim shahids fantasy on 72 virgins in paradise.

13. ON TRAVEL, GEOGRAPHY, VOYAGES

Part of my books can be called travel books, as they are really a travel to the countries that I have visited, to their culture, to memories in my past and the story of our family and friends, but one could find hundreds of pages on all the countries of the world in "Ethics Pays" and "A Voyage into My World's Culture", summarized and linked through my personal prism and with anecdotes on travel to dozens of countries, detailed plans on the visits to dozens of countries, indeed a tourist guide, a geography book, a travel book, like in the good old days when every intellectual who travelled wrote books and memories on his travels. Well, it is not a book of the travels of Marco Polo, neither adventure books by Jules Verne, but it is quite interesting, as I have visited dozens of countries all over the world, and I was always curious to learn their culture, languages, to visit their most interesting sites, to meet fascinating people. I have related also many of those topics in my Business Ethics academic books in dozens of case studies focused in France, Germany, United States, Taiwan, South America, etc. My visits were always holistic; including all the interesting aspects of the countries, finding always time to go to the theater, to folklore concerts, to museums, and learning all what I have found of interest in a very efficient way to benefit most from my visits.

Many times I visited the countries with my wife, my children, my friends, my colleagues, benefiting from their insights and experience as well. I must confess that I am not the leisure type traveler, enjoying weeks of far niente, I am always busy, from early morning to late night, like at home, but even more so abroad, as I fear that I'll lose something. I enjoyed also leisure, in Club Med or the Greek islands, but even then I always found time to make excursions to archeological, cultural and historic sites in Crete, Rhode, Corfu, etc.
